As the RMG sector surges towards the export target of USD 50 billion, **Productivity & Value addition** have become the important hurdles to be overcome. Value addition is seen as the option for bridging the gap in higher value realization given the rise in operational costs and wages.

For the past 19 years GARMENTECH Bangladesh has been the technology destination for solutions related to **Productivity, Value Addition, Compliance, Product Diversification etc.**, for the RMG sector of the country. GARMENTECH Bangladesh has always strived towards getting the global technology closer to the door steps of the end user.

This edition is not going to be any different. Global Leaders in Technology are geared to showcase latest machinery related to **Sewing, Finishing, Laundry, CAD/CAM, Allied machinery and Spares.**
